

Vision of the Quality Assurance Unit

Implementing quality control procedures and standards, improving the institute's standing, and setting it apart from other Egyptian universities.

Mission of the Quality Assurance Unit

Manage and monitor the institute's quality systems in compliance with the National Authority for Educational Quality Assurance and Accreditation's standards and the corresponding procedures that guarantee ongoing advancement and enhancement.

Vision of the Institute

Rank the Institute among the top engineering schools and universities locally and globally.

Mission of the Institute

- Preparing engineers capable of creativity through various academic programs.
- Graduating engineers from different specializations that meet the requirements and needs of the labor market.
- Developing scientific research that complies with local and industrial requirements.
